

OVIELLA

OVIELLA is a bold and modern babies' and children's range in polar-white lacquer with elements of wood in an oak sand version. OVIELLA meets the taste of modern, uncomplicated parents who appreciate not only the aesthetic design but also the practical features of children's furniture.

Special combinations	16-17
BABY-COLLECTION	18

Concept

OVIELLA is a convertible, storage-space oriented system range. The changing unit is an assembly unit with a drawer or flap compartment and a playing table/desk in one. A small combination of assembly units and wall units can easily be extended by adding a side-panel system or wall shelves as the child grows up so this makes it a faithful companion for all those cuddly toys that might find their way into the room.

Functions

- height-adjustable and convertible changing unit
- 2 child's cot versions; convertible into a junior's bed
- as an extra: studio-bed, various-sized wardrobes

Please note:

No special-sized products are possible in the OVIELLA range with the exception of the free width reductions of the side-panel shelves!

Important notes: Fittings for wall mounting are provided with nearly all the units which should be used for your own safety and for constructional reasons. The assembly materials supplied by hülsta (plugs, screws) are only suitable for fitting components on to concrete and/or solid walls. Ideally, one should inquire about the soundness of the walls with regard to their suitability for mounting units when orders are placed and be sure to check them later before mounting any units. If any surfaces are not suitable for mounting units (e.g. plastered or lighter wall materials), one should use another method better suited to the material on site.

- Max. load of wooden shelves as well as drawers: 25 kg; from 70.4 cm width: 15 kg
- **hülsta-SoftFlow:** all drawers on hidden roller bearings with auto pull-in feature with brake (pull out fully)
- **hülsta-MagicClose:** all wooden hinge-doors with door hinge brake
- **GS sign** for tested safety
